

How has technology helped you learn?

I'm going to tell you how I learn with technology. I use YouTube to learn how to make stuff. I look up things to see what they look like. I've looked up Pokémon stuff. I've also looked up how to make slime. This is how I learn with technology.

Ellie Martino, 2nd, Rock Springs Elementary, Dr. Adler

Technology has helped me learn science. The reason it has helped me learn science is because I've done computer science. Computer science is coding. In computer science I made an underwater scene with a shark and a penguin. The shark will hit a building and doesn't eat the penguin. I still need to finish my project. I hope I can finish it later. I have learned a lot from computer science. It's why technology has helped me learn.

Max Taylor, 2nd, Hilton Elementary, Mrs. Edwards

It's fun and I like Teach Your Monster to Read.

Abigail Barker, K, Hilton Elementary, Ms. Howe

YouTube has helped me with math when I was having trouble on a lesson. It showed me exactly what to do. I'm still having a little trouble on it, but I'm doing a little better on the lesson.

Kenzie Marsee, 5th, Elydale Elementary, Mr. DiVirgilio

Well, it's helped me with history you wouldn't find in a history book. It's helped me with information, math, and where to find stuff. Without technology, I wouldn't be able to type this. Technology has helped me out a lot. What has it helped you out with?

David Doran, 6th, Weber City Elementary, Mrs. Sanders

Technology has helped me learn by using Google. Technology helps me learn by using Google because you type something that you want to know in the bar and it will pop up on the screen. Learning on technology by using Google helps me with homework because even before tests start you could be learning what you need to know for the test. Using Google on technology can help people learn when they feel like it. Like if you wanted to find out George Washington's birthday. Type it in, and you would find out it's February 12. These are the reasons that technology has helped me by using Google.

Connor Ratliff, 2nd, Hilton Elementary, Mrs. Edwards

Technology has helped me learn about solar energy for my science report. I have to write five or more paragraphs about any renewable resource. So it helps

me with getting some facts about it so I can learn about solar energy. That is how technology has helped me learn.

Hailey Parsons, 6th, Jonesville Middle, Mrs. Gibson

Technology has helped me learn how to take AR tests. AR tests are cool because you can get points, and you will go on the AR field trip. AR tests are really fun because you can read history books and learn about them. Taking AR tests is lots of fun. You can laugh when you read if your book is funny. Taking an AR test is so much fun.

Sawyer Barnette, 2nd, Hilton Elementary, Mrs. Edwards

Technology has helped me by learning about trucks and cars. My favorite thing the internet has helped me with is farming. There is so much about cows, horses, goats, pigs, and fish. You can also do homework on computers.

Jacob McCurry, 6th, Elydale Elementary, Mr. DiVirgilio

Technology has helped me learn a lot! That's how it helps me study. The way I study with technology is learning apps and games. Some of my favorites are Quizlet, Istation, and other games. When I study, if I can, I choose to study on them. They are very good to study on and always help me on my tests and quizzes!

Anna Parks, 5th, Nickelsville Elementary, Mrs. Fraley

I play games on the computer that help me learn my ABCs and numbers.

Kimber Couch, K, Hilton Elementary, Ms. Howe

I think technology has helped the world learn a lot more than if we didn't have technology. Most people use technology in their everyday lives. Chromebooks, iPads, computers, Smartboards and television. I think the world of education would be at a loss without technology. What's your opinion on how technology affects school?

Kameryn Faust, 6th, Weber City Elementary, Mrs. Sanders

Technology helps me learn about the world and what is going on around me. I don't watch the news a lot so I get on the internet and look it up. All the things I learn right now will help me in the future. I'm glad that whoever made technology made it. I don't know who made it. Well, maybe I'll look that up too.

Macee Collins, 5th, Elydale Elementary, Mr. DiVirgilio

Where do computers get their knowledge? Computer school! I get my knowledge from computers. I get my jokes from computers. Computers help with typing. Computers help with math too. Now I have told you how I learned with technology.

Tyson Jones, 2nd, Rock Springs Elementary, Dr. Adler

Technology helps me learn by giving me access to learning activities. For example, IXL, Cool Math, Math Playground, and SolPass.

Riley Harber, 6th, Jonesville Middle, Mrs. Gibson

One way how technology has helped me learn is Kahoot. Kahoot is this fun app you can answer questions on all sorts of stuff, like grammar or a book you've read. You can even create a Kahoot on

whatever you want. In class my teacher makes a Kahoot on something we are learning. We get out our Chromebooks, the questions come up on the SmartTV, and we answer questions. Kahoot is really fun and it has helped me learn a lot.

Phroncie Price, 6th, Weber City Elementary, Mrs. Sanders

Well, technology has helped me learn in many ways so I can only list a few. Firstly, technology has helped me learn through computer programs such as IXL. Technology has also helped me learn through programs like Google. Lastly, technology has helped me learn by allowing people to conduct research and write papers.

Mia Jerrell, 6th, Jonesville Middle, Mrs. Gibson

I learned from YouTube. YouTube is good to me because it helped me learn math. YouTube also helped me learn my ABCs. YouTube also helped me spell. YouTube is the technology that helped me.

Kiersten Voight, 2nd, Rock Springs Elementary, Dr. Adler

You type and play games on the computer. It makes me happy.

Brimberly Fleenor, K, Hilton Elementary, Ms. Howe

Technology has helped me learn how to code. It teaches you how to make games in the future. Facebook, Instagram, Snapchat, and games were made by code. Code teaches you to make games. Coding is a lot of fun. You should try it.

Kate Blakemore, 6th, Jonesville Middle, Mrs. Gibson

Technology has helped me learn how to make apple pie. It's helped me learn how to make banana pudding. It's helped me learn how to play games.

Jesse Lowe, 6th, Elydale Elementary, Mr. DiVirgilio

I love Teach Your Monster to Read. You learn your sight words and get free snacks.

Lily Brewington, K, Hilton Elementary, Ms. Howe

Technology helped me learn by using online educational sites. Google is a good site to use look up stuff like how to spell things or history events. Sometimes you can even use online classes. You can also use math quiz games on your phone. Online you can also take tests on things you would like to know.

Arwen Perry, 5th, Elydale Elementary, Mr. DiVirgilio

Technology has helped me learn by playing on educational games or websites. They are fun, so I pay attention and I remember the stuff it's teaching me. I don't just use technology to help me learn in school, it also helps me learn what is happening around the world too. I like playing game slike IXL or Weebly. This is how technology has helped me learn.

Olivia Smith, 6th, Weber City Elementary, Mrs. Sanders

Technology has helped me through online learning sites such as IXL, Math Playground, and many other sites. They use games and other stuff to make learning more fun. Because who likes doing boring paperwork!?

Caylea Ellis, 6th, Jonesville Middle, Mrs. Gibson

The computer can help you learn a lot of things. It can help people learn math. It can help people learn to tell time. It can help you learn reading. The computer can help you learn a lot of things.
