

List three occupations you might like to try in the future.

Three occupations I would like to try out are an artist, a mechanic, and a carpenter. I have always loved to draw, so I would feel right at home if I were an artist. Many vehicles fascinate me, and being a mechanic would let me study and fix every vehicle I can imagine! Building is one of my favorite things to do, so a carpenter.

My friends and family believe in this career more than any of my other options; I have been told that my imagination can get me anywhere. What better career to use my imagination than an author?

Last on my list would be an actress. I don't fall too heavy on this occupation because it is very rare that I will ever get a chance in the world of acting, but it makes me happy.
