# If you were in charge of the whole world, what would you do to make it a happier place?

If I had the ability to change the world and make it a happier place, how would I do that? If I had the opportunity to have all the resources possible to change the world, then I would build homes for all of the homeless people. I know that this seems impossible, but if I could snap my fingers and the world would change, then I would make sure that no one would have to wonder where they were going to sleep that night. I would make it so that homeless people and just people with less money in general have a chance to get a job. Many people always use the common phrase, "Well, why don't you just get a job?" I wonder if these people have ever really thought about that question. It's easier for them with their own car, nice clothes, and personal shower. Now, think about somebody who doesn't have any of that—they don't have their own car, they more than likely only have one change of clothes (if that), and they don't have the nice things that you have. It's possible that employers aren't going to want to hire people like that. If I had the chance to change the world, I would build homes for the homeless and have more jobs that would enable people struggling to earn more money. I would want to make the world a better place by helping so that we don't see such suffering everywhere we go.
Emma Horton, 8th, Surgoinsville Middle, Mrs. Hensley

If I could change the world, I would want people to be good to others and treat them nicely. I would tell them not to break the laws and that would make the world a safer and better place. This would make people treat others the same. What would you do to make the world a better place?
Charlie Anderson, 3rd, Mount Carmel Elementary, Mrs. McCann

I would want for everybody to pick up the litter and trash to where everybody would be able to breathe safely. It would make people want to have fun playing basketball, football, and other games outside. I would change where you can have any car in any state. It would be pretty awesome driving a Lamborghini down the road.
Walker Baker, 5th, Jonesville Middle, Mrs. Austin

If I were to change the whole world to make it a happier place, I would help people. What I would do to help people is give them food and give them clothes. I would make people happy and surprised. That is how I would change the whole world to a happier place.
Lily Cordery, 2nd, Hilton Elementary, Mrs. Edwards

If you had the power to make the world a better place, what would you do? I would end wars and make peace with other countries. I would also ban unfair laws. That's what I would do if I had the power to make the world a better place.
Connor Bennett, 4th, Miller Perry Elementary, Ms. Jeffers

If I was in charge of the whole world and wanted to make it a happier place, I would give food, clothes, and shelter to the homeless. I would also give every child the opportunity of an education so they can have a wonderful, experienced future.
Madison King, 7th, Jonesville Middle, Mrs. Brooks

If I were in charge of the world, the first change I would make would be to open a school that teaches people how to be grown-ups. If we had a school to teach young adults to be a wife, husband, mom, or dad—the world would be a better place. The things that they would teach would be the following: learning how to take care of children, washing the dishes, doing the laundry, how do deal with a baby when it is crying, and just about everything a grown adult needs to know. This is what I would change about the world if I was in charge.
Bayley Jones, 5th, Surgoinsville Middle, Mrs. Sauceman

If I was in charge of the whole world I would give veggies to everyone.
Sophia Davis, Kindergarten, Hilton Elementary, Ms. Howe

If I was in charge of the world, I would have one day out of every year were everyone would not go to school or jobs. I would have all amusement parks open for free on that specific day. I would have amusement parks in every county open every day for twenty four hours a day. This is what I would do to make the world a happier place if I was in charge.
Kaydence Seals, 6th, Jonesville Middle, Mrs. Jones

If I could make the world a happier place, I would pick up trash. I would help stop pollution.
Avie McDavid, 2nd, Nickelsville Elementary, Mrs. Gilmer

If I were in charge of the world, I would make it a happier place by making people's dreams come true. I would ask a professor to make a ray that would make people's dreams come true. It would be called The Dream-Maker. You would put it on your head and pull a lever. It would be hooked up to an energy box. The person hooked up to it will fall asleep and would see their dreams. Then we would make it come true. That's how I would make the world a happier place.
Cole Ratliff, 1st, Hilton Elementary, Mrs. Light

What would you do if you were in charge of the world? I would stop people from bullying each other. A lot of people with autism are getting bullied because of their looks and behaviors. I would make sure people tried to understand. I would also make sure everyone had food and shelter. I would also try to do everything possible to make sure people had a smile and not be sad. I would work to make sure people could stay healthy and not get sick. I would

try to make sure people are treated nicely. I would want people to have money to buy stuff because a lot of people need things. These are some things I would like to change if I was in charge of the world.
Rylee Derrick, 3rd, Mount Carmel Elementary, Mrs. McCann

The world, with a lot of hate and discrimination, can be a very sad place sometimes. People need to learn how to love and accept no matter what background people come from. Hate is a very strong word, and people use it to criticize or bring others down. If I was in charge of the world, I would make a platform to let people learn about others and learn about people from all over the world. If people got to know each other from across the globe or around the world, maybe we would have less hatred or irate feelings about one another. The world would be a much happier and greater place.
William Smith, 8th, Surgoinsville Middle, Mrs. Hensley

If I could make the world a happier place, I would stop robbery. I would help homeless people.
Maddie Jones, 2nd, Nickelsville Elementary, Mrs. Gilmer

If I was in charge of the whole world and wanted to make it a happier place I would take all the drugs out of the world. Drugs are bad. Not only for the people using them, but also those around them.
Clayton Moore, 7th, Jonesville Middle, Mrs. Brooks

If I was in charge of the world, I would make it a happier place by making the world out of candy. I would make all the buildings into chocolate. The grass would be bubblegum and the houses would be marshmallows. The world would be a happier place made out of candy.
Bentley Trivette, 1st, Hilton Elementary, Mrs. Light

If I was in charge of the world I would make learning at school more fun. It will make learning easier than it is. It will also make kids want to come to school. That's what I would do if I was in charge of the world.
Damian King, 6th, Jonesville Middle, Mrs. Jones

If I was in charge of the world I would make ice cream free so everyone can have some. Then I would make baseball an everyday priority. I would also make a lot of really cool cars that go really fast for everyone. I would make schools have a great learning system so everyone can go to college. That is what I would do if I was in charge of the whole world.
Gavin Hickernell, 5th, Surgoinsville Middle, Mrs. Sauceman

If I could do something to change the world it would be to pick up all the litter. My family and I get trash pickers and pick up the litter around our community. My class can also pick up litter around our playground. You could get trash out of rivers and creeks. That could make people happier.
Alex Hensley, 2nd, Hilton Elementary, Mrs. Edwards

If I was in control of the Earth, I would destroy all of the guns and weapons. First, it's because some people use guns to kill or hurt other people. Second, shooting and danger make people sad. Lastly, government leaders could be assassinated by someone and leave our country in turmoil. In conclusion, the reason I would take them away is I don't want anyone getting hurt by guns.
Tony Bullock, 3rd, Mount Carmel Elementary, Mrs. McCann

If I was in charge of the whole world I would try to reduce pollution and littering. Make sure trees are planted to give people enough oxygen to breath. Try to send humans to Mars. Make a newer machine that makes two-dollar bills again. The last thing I would do is shorten the time kids have to go to school.
Claira Cox, 5th, Jonesville Middle, Mrs. Austin

If I was in charge of the whole world I would give everyone toys.
Lucas Carter, Kindergarten, Hilton Elementary, Ms. Howe
