I am most excited to get to go to classes by myself because it's my responsibility to go to my next class. What I also like about this school year is that I get to meet new people from different elementary schools.

5th grade is going to be a great year. First, I can't wait to get my own Chromebook. I can't wait to use my own mouse. Second, the Honor Society trip is going to be so fun. Last, I especially can't wait for bouncy house day. I can't wait to have fun in 5th grade.

This year I am most excited for field trips. Field trips are my favorite because if it's a long bus ride then you get to talk to your friends, but if it's a short bus ride then you get to do the activity faster. Field trips are exciting, fun and joyful. Everything is awesome and great.

Daylynn Parks, 6th, Jonesville Middle, Mrs. Jones

I'm excited about new kids coming to our school. I love to make new friends, and there are some new ones. Now I know them. I think I will love my teacher a lot. This year I am most excited about our school houses. In houses we get to know students in lower grades, and they get to know us. I think it is a great thing for 5th graders because they really don't know anyone in this school, and they get to make new friends. We get to have competitions and compete for house points. We also get to know other people in our grade that we normally don't get to talk to. We also get to interact with other people in other houses during our Friday competitions. We get a chance to learn in a more fun way than sitting in a classroom and copying notes. So, this year I am most excited about our houses.

Books are one of my favorite things in the whole world. I read as much as possible. The school library looks really cool; there are tons of books. It is always very quiet and there are lots of places to sit in the library.

Adriana Barnette, 5th, Pennington Middle, Mrs. Elkins

The question I was given was a little tough to answer but I'll answer it. The thing I'm most excited about is science class. The reason is because of all the fun experiments we do. This school year, I am most excited about leading as an exemplary student for the younger students of Surgoinsville Middle School. It is quite obvious that as 8th graders, we are expected to be the most well behaved, responsible, and respectful students. I enjoy being a role model for the younger kids to look up to. I find it very important to set the best example for the grade levels below mine. It's very exciting to know that you're the student that is looked up to for guidance and direction.
