Did you know orcas are the largest animals in the dolphin family? It's true! They are not sharks. They are part of the dolphin family, and they are not sharks. Even if they look like sharks, they are not sharks! They can shoot water out of their blowhole. That's how they are different from sharks!
Atlas Robbins, 2nd, Rock Springs Elementary, Mrs. Charlton

For Trivia Day, a fun fact that I know that nobody else knows is that a corndog is named a corndog because the hotdog is covered in corn meal. Another fact is that March 19th is National Corndog Day. There is controversy about who really invented the corndog. The next fun fact I know is that you could win a lot of money if you eat a lot of corndogs in a corndog eating contest. Corndogs have a rich history and have become a very popular food in America.
Chloe Ellis, 6th, Elydale Middle, Mrs. Smith

For Trivia Day, a fun fact I would like to share is that owls have really good eyesight. They hunt for prey at night. They can spin their heads around in circles. Owls are nocturnal; they sleep during the day and they are awake at night. I like learning about owls.
Kambri Branham, 2nd, Hilton Elementary, Ms. Edwards

This is a fun fact I'd like to share. Jaguars are the only big cats that target a prey's skull instead of its neck. They are also the only big cats that hunt crocodiles.
Renton Britton, 7th, Jonesville Middle, Mrs. Brooks

Hi! Today we're learning about dogs! They are the most popular pet in the world. They can learn 100 words and gestures. They can be left or right pawed. Now you know some facts about dogs.
Brody Martin, 4th, Miller Perry Elementary, Ms. Jeffers

Did you know Capuchins are a lot like humans? They are smart, fast, and funny. They eat bananas, fruits and more. They live in South America, Brazil, and more. And that is some facts about Capuchins.
Gavin Young, 5th, Pennington Middle, Mrs. Hughes

DID YOU KNOW?

January 4th was Trivia Day. Write about a fun fact you want to share.

Types of horse breeds may be big or small. Have you ever seen a horse's lung? Horses' lungs take up half of the horse's insides. Horses' lungs can get up to 4 to 6 feet long! That's as big as a human! Another fun fact about horses is the way their ears move. If their ears are turned right up, they are happy. If they are right in the middle of completely turning around and going forward, the horse is upset. If they have their ears completely turned around, they are mad.
Madelyn Wires, 6th, Elydale Middle, Mrs. Yeary

For Trivia Day, a fun fact I would like to share is about a caterpillar's life cycle. A butterfly lays an egg. Then the egg hatches. Then it becomes a caterpillar. Then it goes in a cocoon for a few days. After a few days, it becomes a butterfly. Talking about caterpillars is fun.
Landri Carter, 2nd, Hilton Elementary, Ms. Edwards

A small dog can live longer than a big dog. Like, a chihuahua can live longer than a bigger dog. It's because a smaller dog has a longer lifespan than a bigger dog. A bigger dog has a shorter lifespan.
Holley Jones, 2nd, Rock Springs Elementary, Mrs. Charlton

Get ready to learn more about planets, dwarf planets, and a possible something. Let's go! As of this month, Saturn has almost 150 moons! Five of them are Titan, Rhea, Iapetus, Dione, and Mimas. A day on Pluto is less than a week. On Eris it's over a day. On Haumea it's less than 5 hours. On Makemake it's less than a day. On Ceres it's less than 10 hours! There might be a Planet 9 out there, but it's absolutely unknown, so we don't know if it exists.
Nate Copas, 4th, Miller Perry Elementary, Ms. Jeffers

Did you know that my favorite animal is a fox? They live in a hole underground. They eat berries and fish. Some live in Antarctica.
McKinley Garrett, 5th, Jonesville Middle, Mrs. Davis

Stephen Curry has the record for the most free-throws.
Evan Tritt, 6th, Pennington Middle, Ms. Lambert

One cool and surprising fact I'd like to share is that tarantulas do not make webs. Everybody thinks that they do because they're spiders, but they do not. Even a tarantula in an animated feature is named Webs! Even though they're spiders, tarantulas cannot make webs. They stalk their prey instead.
Isabella Pittsnogle, 6th, Elydale Middle, Mrs. Yeary

For Trivia Day, a fun fact I would like to share is that deer have a great sense of sight. They can see you even if you're wearing camo. They can see you even when you're reloading your weapon, and they will startle. They can see bears too. Even if you're putting down food, they will see you. I wanted to share that deer can see well.
Brandon Stallard, 2nd, Hilton Elementary, Ms. Edwards

A fun trivia fact that I would like to share is that girls have more tastebuds than boys! That's cool to me! I read that in a book called Weird But True!

Paisley Harer, 2nd, Rock Springs Elementary, Mrs. Charlton

This is a fun fact I'd like to share. Panthers only eat once a month.
Hudson Neff, 7th, Jonesville Middle, Mrs. Brooks

For Trivia Day, a fun fact that I know is that Taylor Swift is a self-made billionaire through her Eras Tour concerts and her rocket-selling albums. She is the most viewed and followed singer and songwriter of all time. She has also has more than three songs at one time on Billboard. Taylor also inspires tons of people for the kind and caring things she does.
Rilyn Welch, 6th, Elydale Middle, Mrs. Smith

A fun fact that I learned is horses can sleep standing up. They can also sleep normally lying down. They sleep 10 hours and that is a fun fact.
Xadrienne Kelly, 6th, Pennington Middle, Ms. Lambert

Did you know that ostriches have the biggest and hardest egg? Ostriches can run up to 43 miles per hour. Ostriches are the fastest bird on land, even though it can't fly.
Jarik Vaughan, 5th, Jonesville Middle, Mrs. Davis

Did you know that sloths eat leaves, fruit, bird eggs, lizards, and insects? Sloths eat 73.5 grams (2.5 ounces) per day. Also, sloths do not eat a large quantity of food on a daily basis. Sloths eat very little food per day since digestion takes a very long time to complete. Those are some facts about sloths.
Preslee Ward, 4th, Miller Perry Elementary, Ms. Jeffers

Fun fact: my favorite animal is a cat. They are really soft. They have weird spikes on their tongues. Their nails grow faster when they scrape the carpet. They have really sharp teeth. When they knead the blanket on your bed it is called making biscuits.
Rhiannan Marcum, 5th, Pennington Middle, Mrs. Hughes

January 4th was Trivia Day. I know a lot of fun facts about snakes. Some snakes are venomous. They also have fangs.
Serenity Dane, 2nd, Nickelsville Elementary, Mrs. Gilmer
