If you were a toy inventor, what toy would you make? If I were a toy inventor, I would make a new card game called Boom. Most game cards don't have pictures, so I would add funny pictures. I would also add funny jokes. Is this a game you would enjoy?

Kash Kiser, 5th grade

Ketron Elementary, Mrs. Amyx

If I were a toy inventor, I would create a cuddling stuffed animal. It is new because it doesn't stay in one spot. It comes and snuggles me at night. The stuffed animal is a baby Border Collie. It is spotted brown, white, and black. Instead of me grabbing it to snuggle, it comes to snuggle me when I get in my bed. Its name is Oreo. Dogs are special to me.

Molly McMurray, 2nd grade

Hilton Elementary, Mrs. Edwards

I would create a flying car that would fly in the air. First, you would open the toy. Then, you would set up the ramp and get the car in place. Last, you would press the button and the car would fly. That would be cool to me.

Paisley Harer, 2nd grade

Rock Springs Elementary, Mrs. Charlton

If I were a toy inventor, I would invent an auto tune microphone. I would make an auto tune microphone so people could sound like their favorite rapper. We would put every rapper in the world on the auto tune microphone. Who is your favorite rapper?

Bentley Hawkins, 5th grade

Ketron Elementary, Mrs. Amyx

If I were a toy inventor, I would create a toy that would do my homework for me. It would have a pencil in a hole so it can write. I want it to be purple and it will cost \$40. You can buy it on Amazon or at Walmart and Target. Its name would be Homework Writer. This will be an amazing invention.

Maylee Hall, 2nd grade

Hilton Elementary, Mrs. Edwards

Imagine you are a toy inventor. What would you create?

If I were a toy inventor, I would make a machine that gives you anything you want. You can get any toy. You can get an electronic device like a tablet, computer, or Switch. You can get Micromachines or any type of cards or board games. You can get any game like cornhole or Frisbee. It can also play any song.

Canaan Farmer, 2nd grade

Rock Springs Elementary, Mrs. Charlton

If I were a toy inventor, I would create a robot that would hold people's glasses. It would be available on Walmart.com. It would come with a remote. It would bring you your glasses. It can come in different colors. It will turn into a stuffed animal at night.

Kimber Raby, 2nd grade

Hilton Elementary, Mrs. Edwards

If I were a toy inventor I would make a time machine. Then I could go anywhere whenever I want. I would go to Texas because I like Texas. I like the water slides and roller coasters. That's where I would go and that's what I would invent. What would you invent and why would you invent it?

Aidyn Marshall, 5th grade

Ketron Elementary, Mrs. Amyx

Something that I would create would be a lying down cat figurine with a button. When you press the button, a lollipop would be dispensed. On the bottom of the figurine, there will be a hatch where you can reload the lollipops. Another toy I would create would be a stuffy that kind of looks like a Squishmallow. When you flip it inside out, it turns into many different animals. For example, if it's an owl and you flip it, now it's a cat. Flip it again, now it's a fox, and so on. It will flip to different animals until it's an owl again. That is what I would create if I were a toy inventor.

Mikaya Iannelli, 5th grade

Ketron Elementary, Mrs. Amyx

If I were a toy inventor, I would create an animal communicator. The animal communicator could talk to animals. You could hear the animals talk. It is a special collar. You put the collar on the animal and then the animal can hear you talk. You can also hear it talk. Now you communicate! That is what I would invent.

Jayden Edwards, 2nd grade

Hilton Elementary, Mrs. Edwards

I would make a Stitch Toy. Stitch would be on a surfboard. It would come with a remote control. If you stick it in the pool, you could get the remote control and control it. On the remote it would have a button you could press, and Stitch could make waves. Then, Stitch would ride on them! I love Stitch!

Molly Jenkins, 2nd grade

Rock Springs Elementary, Mrs. Charlton

If I was a toy inventor, I would make a cleaning/homework answers robot to help kids that are lazy like me. I would also make a talking robot that talks to you when you need to talk to someone if no one is there for you, because it would help kids and even grownups that are in their depression era.

Natalie Million, 5th grade

Ketron Elementary, Mrs. Amyx

If I were a toy inventor, I would create a remote-controlled side by side with an electric engine. This toy will be very cool because it will have working headlights. The engine will make real car noises. The colors will be red and white. It is very capable in mud. Every kid would love this toy.

Brandon Stallard, 2nd grade

Hilton Elementary, Mrs. Edwards

If I were a toy inventor, I would invent a flying Barbie that can move and talk. It would also have a bendable body. She would help me carry stuff she would be person size, and she . She'd tell me answers to tests.

Isabella Simpson, 5th grade

Ketron Elementary, Mrs. Amyx

I'd create a toy that could fly. I would make it colorful because little kids love colorful things and also sparkly stuff. It'd have a remote control incase if emergency. The toy would be sort of cheap so many kids would be able to afford it. I'd also make a toy that would look like a doll. The doll would have some brown hair with green eyes because the typical doll shouldn't always be blonde and blue eyes. Anyway, I'd like to include many types for many different people. There would be five different outfits you could dress the doll with. I'd make the doll around \$6.25 so it isn't too expensive. What toy would you create and what price would you make it?

Emma Price, 5th grade

Ketron Elementary, Mrs. Amyx

If I were a toy inventor, I would create Huggy Wuggy. A Huggy Wuggy would give you comfort when you are scared. Huggy Wuggy has long arms and legs that wrap around you. It looks like a blue human. Huggy Wuggy is a great toy when you are scared.

Jessey Johnson, 2nd grade

Hilton Elementary, Mrs. Edwards
